

Distributor Opportunities

A critical component of any successful consulting engagement is having the right tools. Whether that means survey instruments, logic models, or technological resources, a good tool will allow you to communicate your message more effectively, and will give your clients the ability to act upon your training and advice. This could not be truer than for program evaluation.

Results Technologies Solutions (RTS) has over 15 years of professional expertise in results-based program evaluation and management software.

Our products, including our keystone product, ResultsOnline@2 <http://www.resultsonline2.net>, bring that expertise to bear. ResultsOnline2 is a web-based evaluation system that comes with features your current and prospective clients need:

- Complete logic model (evaluation plan) step-by-step creation
- Database management and organization wide reporting
- Optional scalable and system customization
- Client tracking through multiple programs
- Web-based so that it is only dependent upon a browser
- Available technical support

Benefits of Becoming a RTS Distributor

By partnering with RTS, you can offer results-based software products, including ResultsOnline2, directly to your clients. Our software becomes a valuable tool to add to your list of services, helping you deliver even better overall value to your clients.

**The key to success is
having the right tools.**

PLUS each time you sell a license, you receive a commission!

RTS Capabilities

Does your client need a feature that ResultsOnline@2 does not currently have? Talk to us. We value feedback and are willing to add features or even customize individual systems. Our specialty is software engineering - working with RTS means that our specialty can be yours as well.

Contact

We look forward to working with you. Please call us at (919) 830-6423 or email heather.curtis@resultstechnologies.net to discuss this opportunity!
